# Talent Technology Capability Matrix Definitions

Talent Intelligence	• Tools to assess the market landscape, recruiting efforts and talent available
Talent Plan	• Objectives of the Talent Acquisition function related to the projected type of talent needed by the business and when it is projected
Artificial Intelligence	• Computer systems able to perform tasks that normally require human intelligence, such as visual perception, speech recognition, decision-making, and translation between languages.
Talent Mining	• Tools to search, index, mine online data for people related information, for the specific activity of engaging them in career related conversations
Talent Networks (Community)	• An opt-in candidate database where all of the content is created by the employer, keeping engagement company to candidate
Assessments	• the evaluation or estimation of the nature, quality, or ability of someone
Verifications	• The validation of a persons information related to potential employment (background check, drug testing, references)
Candidate Relationship Management (CRM)	• Allows recruiting teams to seamlessly create talent profiles, communicate and market to prospects and encourage top candidates to apply for opportunities
Applicant Tracking	• The tracking of activities related to a job and candidates associated with that job
Onboarding	• The tracking of activities prior to hire, socialization of company information and provisioning of equipment
Recruitment Marketing	• Support, establish and manage the brand elements related to recruiting. Also included in this category are advertisement agencies, branding firms, and marketing specialists
Intelligent Marketing	• Targeted tools that facilitate and deliver specific marketing results, targeted candidate campaigns, pay-per-applicant
Job Distribution	• Cross publication of job related information for soliciting interest
Interview Scheduling	• Collaboration tools for identifying scheduling availability, notifications and coordination
Video Interviewing	• Video interactive interview platform
Event Management	• Event activity management, coordination, facilitation and metrics
Social Recruiting	• Recruiting activities focused on social platform engagement, research and listening
Career Portals	• Interactive sites for education, action and information specific to the career opportunities
